1. System Overview

Baritone Music Academy is a comprehensive Learning Management System (LMS) tailored specifically for musical education. It features:

- **Public Conservatory:** A sleek, mobile-friendly catalog to showcase masterclasses, faculty, and academy journals.
 - **Secure Authentication:** Role-based access control separating Students, Instructors, and Administrators.
 - **Interactive Classrooms:** A focused environment combining video lessons, digital sheet music, and theory assignments.
 - **Grading & Certification:** Tools for instructors to provide audio/video critique, and an automated system that issues verifiable PDF diplomas upon course completion.
-

2. Getting Started (All Users)

Registration & Login

1. **Public Site:** Navigate to the homepage to explore available Masterclasses, read the Academy Journal (Blog), or verify certificates.
2. **Account Creation:** Click the **Join Academy** button in the top right corner. Provide your basic information to register as a new student.
3. **Log In:** Click the **Log In** button and enter your email and password.
4. **Dashboard Access:** Upon logging in, the system will automatically route you to your specific dashboard based on your assigned role (Student, Instructor, or Admin).

Switching Views

- Use the **Public Site** button in the top navigation bar of your dashboard to seamlessly switch back to the public-facing pages at any time.
-

3. Student Guide

The Student Dashboard is your central hub for musical progression, coursework, and academy communication.

Enrolling & Accessing Masterclasses

1. Navigate to **Explore Courses** to view the public catalog and enroll in new Masterclasses.
2. In your dashboard, go to **My Enrolled Masterclasses**.
3. Click on any course to enter the **Classroom View**.
4. The Classroom provides a focused environment with a sidebar containing all your lessons, audio/video materials, and interactive digital scores.

Practice Assignments & Quizzes

- **Assignments:** Instructors will assign practice etudes and assignments. Navigate to **My Practice Assignments** to view pending tasks. You can upload video/audio recordings of your practice here to receive grades and high-fidelity audio critique from your instructor.
- **Quizzes:** Test your music theory knowledge. Your scores are automatically logged in the system and contribute to your course completion status.

Tuition & Payments

- Navigate to **My Tuition & Payments** to view pending invoices, past transaction history, and securely handle your tuition fees via the integrated payment gateways.

Diplomas & Certificates

- Upon completing 100% of a Masterclass, you will automatically be awarded a verified certificate.
 - Navigate to **My Diplomas & Certificates** to download your PDF certificate.
 - You can share the unique **Credential ID** with third parties, who can verify its authenticity on the public **Verify Certificate** page.
-

4. Instructor Guide

The Instructor Studio Dashboard equips you with the tools needed to manage your classes, grade students, and foster artistry.

Curriculum Hub (Managing Courses)

1. Navigate to **Manage Masterclasses** to view courses assigned to you.
2. Click **Create New Masterclass** to start a new syllabus.
3. Structure your courses by adding **Lessons**. You can upload video demonstrations, embed external links, and attach sheet music PDFs.
4. Use the built-in rich text editor to format lesson content beautifully.

Grading & Feedback

1. Navigate to **Assignments & Practice Submissions**.
2. Here, you will see a queue of student audio/video uploads.
3. Review the submissions, provide a numerical grade, and use the feedback box to deliver comprehensive, conservatory-level critiques to your students.

Exam Management

- Create theory quizzes directly tied to your Masterclasses. Manage questions, set passing scores, and review student performance analytics to gauge class comprehension.

5. Administrator Guide

The Admin Conservatory Overview provides absolute control over the platform's infrastructure, users, and aesthetic presentation.

User & Role Management

1. Navigate to **Manage Academy Users**.
2. You can view all registered users.
3. Invite new instructors, manage student enrollments, or promote users to different roles (e.g., upgrading a Student to an Instructor).

Site Customizer (Dynamic Settings)

- Go to the **Site Customizer** under the Admin settings.
- This powerful tool allows you to dynamically update the platform's global settings without touching the code.
- **Branding**: Change the Site Name, Tagline, and Logos.
- **Contact Info**: Update the Academy's physical address, email, phone number, and Social Media Links.
- **Navigation Toggles**: Enable or disable specific menus (e.g., hiding the Blog or specific navigation links).

Global Oversight

- **Tuition Management**: View all platform transactions, oversee simulated payment gateways, and manage bursar office requests.
- **Academy Bulletins (Announcements)**: Post global announcements that appear immediately on all users' dashboards.
- **Manage Instruments**: Add, edit, or remove instrument categories (e.g., Piano, Strings, Woodwinds, Vocals) to organize the course catalog dynamically.

6. Common Features

Academy Inbox (Messaging)

- A built-in messaging system accessible via the **envelope icon** in the top right of your dashboard.
- Communicate directly with instructors, peers, or administration.
- Keep track of unread messages with the real-time red notification badge.

Profile & Security

- Click your **Avatar** in the top right corner and select **Profile & Password**.
- Update your personal information, change your display picture, and update your secure password at any time.

*Always remember to use the **Log Out** button located in the profile dropdown menu when using a shared device.*
